Dr. Falconer,

President University.

Dear Sir,

Re. Torontonensis.

Referring to our conversation of yesterday morning when the matter of fees etc. was discussed, I beg to state that the Students' Council last eve. found themselves unable to endorse the order which I had enclosed in my letter to the Sec'y, for the reason that A. S. Miller had not yet submitted his financial statement of last year's work. Mr. Hayes however, was instructed to communicate with Miller in order to avoid any further delay. He informed me also that the Council were quite ready to grant me \$150.00 credit except for this one difficulty which I have already explained.

If the position were not so awkward I would be quite content to let the matter lie for a few days but my supplementary exam. fees have not yet been paid in at the Registrar's office and I have consequently been compelled to withhold my registration. If some arrangement could be made very soon whereby this \$11.00 fee and my board at the dining-hall would be charged

President Falconer, (2)

to the account of my salary in connection with
the publication of *Torontonensis*, I would appreciate
it very much.

With this explanation I trust that some
satisfactory adjustment may be made.

Yours very truly,

Herbert Turney
